

# Can my child get a free or low cost measles shot?

---

Yes. The Minnesota Vaccines for Children Program (MnVFC) offers free or low cost shots for children 18 years of age and younger – including measles, mumps, rubella vaccine (MMR).

Your child is eligible if they are:

- Uninsured
- Enrolled in a Medical Assistance (MA), MinnesotaCare, or a Prepaid Medical Assistance Program (PMAP)
- American Indian or Alaskan Native
- Have health insurance but it doesn't cover the cost of all shots
- Have health insurance but it has a "cap" and you have reached the cap for this year
- Have health insurance but it has an "annual deductible" and you have not paid the annual deductible.

You can call your doctor or clinic to make sure that they are enrolled in the MnVFC Program.

If your child does not have a doctor or clinic, you can call any of the clinics below.
